

Amanda-Clearcreek Local Schools

Annual Nutrition Report 2022

Each District or school will provide copies of the report available to the public upon request:

District or School Information State law in Ohio requires each school district board of education and each chartered non-public school board or governing authority to adopt and enforce nutrition standards governing the types of food and beverages available for sale on the premises of its schools. Additionally, the board or governing authority must specify the time and place each type of food or beverage is available for sale.

The standards specified for beverages and food are minimum standards. Local districts and schools may adopt higher standards. Each board or governing authority assigns staff to make sure that the district or school meets the nutrition standards in state law. The Annual Report outline the district's compliance with the standards.

Nutrition Standards for School Meals:
